Re: Information Request Letter Related to Stringfellow Superfund Site

Dear Mr. Bixby:

The United States Environmental Protection Agency ("EPA") is spending public funds to investigate and respond to actual or threatened releases of hazardous substances, pollutants, and contaminants into the soil and groundwater from the Stringfellow Superfund Site (the "Site") in Riverside County, California. This letter seeks your cooperation in providing information and documents that Pacific Scientific Energetic Materials Company, LLC (the "Company") may have pertaining to the former operations of Teledyne Industries, Inc.'s McCormick Selph division near the Site. The term "Site" as used herein includes the properties in or near Pyrite Canyon that surround the former Stringfellow hazardous waste disposal area.

As part of its ongoing investigation of the Site, EPA is seeking to identify activities and parties that have or may have contributed to contamination at the Site. EPA believes that the Company may have information that will assist the EPA in its investigation, especially with regard to perchlorate releases. EPA requests that the Company answer the questions contained in Enclosure B. Definitions and instructions on how to respond to the questions are provided in Enclosure A.

Under Section 104(e) of Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. § 9604(e), EPA has broad information-gathering authority that allows EPA to require persons to furnish information or documents relating to:

- (a) The identification, nature, and quantity of materials which have been or are generated, treated, stored, or disposed of at a vessel or facility or transported to a vessel or facility.
- (b) The nature or extent of a release or threatened release of a hazardous substance or pollutant or contaminant at or from a vessel or facility.
- (c) Information relating to the ability of a person to pay for or perform a cleanup.

Please note that the Company's compliance with this information request is mandatory. Failure to respond fully and truthfully may result in an enforcement action by EPA pursuant to Section 104(e)(5) of CERCLA, 42 U.S.C. § 9604(e)(5). This statutory provision authorizes EPA to seek the imposition of penalties of up to \$37,500 per day of noncompliance. Please be further advised that provision of false, fictitious, or fraudulent statements or representations may subject you to criminal penalties under 18 U.S.C. § 1001. The information the Company provides may be used by EPA in administrative, civil, or criminal proceedings.

Some of the information EPA is requesting may be considered by the Company to be confidential. Please be aware that the Company may not withhold information upon that basis. If the Company wishes EPA to treat the information confidentially, it must advise EPA of that fact by following the procedures outlined in Enclosure A, including the requirement for supporting its claim for confidentiality.

This request for information is not subject to review by the Office of Management and Budget ("OMB") under the Paperwork Reduction Act because it is not an "information collection request" within the meaning of 44 U.S.C. §§ 3502(3), 3507, 3512, and 3518(c)(1). See also, 5 C.F.R. §§ 1320.3(c), 1320.4, and 1320.6(a).

We encourage the Company to give this matter its immediate attention and request that it provide a complete and truthful response to this information request within thirty (30) calendar days of its receipt of this letter. EPA is committed to moving forward with its investigation, and extensions of time for responses will only be granted upon a showing of good cause and for no more than 30 days. If the Company anticipates that it will need an extension, please request one as soon as possible. Requests for extensions made at or near the due date will not be viewed favorably by EPA. The Company's response to this letter should be made in writing and signed by you or a duly authorized representative of the Company. If some or all of the requested information has previously been provided to EPA, the Company may incorporate that information by referencing the date of the earlier response and the information contained therein that is responsive to the current information request.

The Company's response should include the appropriate name, address, and telephone number of the person to whom EPA should direct future correspondence in regard to this information request.

The Company's response to the information request should be directed to:

Keith Olinger, Enforcement Officer (SFD-7-5)
U.S. EPA, Region 9
75 Hawthorne St.
San Francisco, CA 94105

If the Company has any questions regarding this letter, please contact Keith Olinger at (415) 972-3125 or olinger.keith@epa.gov. Questions regarding the Site's cleanup status should be directed to the Remedial Project Manager, Julie Santiago-Ocasio, at (415) 972-3525 or santiago-ocasio.carmen@epa.gov. Questions regarding legal matters can be directed to Andrew Helmlinger at (415) 972-3904 or helmlinger.andrew@epa.gov. Thank you for your prompt attention to this matter.

Sincerely,

A handwritten signature in black ink that reads "Kathi Moore". The signature is fluid and cursive, with the first name "Kathi" and last name "Moore" clearly distinguishable.

Kathi Moore, Manager
Case Development Cost Recovery Section
Superfund Division

Enclosures (2):

Attachment A (Instructions and Definitions)

Attachment B (Information Request)

ENCLOSURE A: INSTRUCTIONS AND DEFINITIONS

Instructions:

1. Answer Every Question Completely. A separate response must be made to each of the questions set forth in this information request. For each question contained in this letter, if information responsive to this information request is not in the Company's possession, custody, or control, please identify the person(s) from whom such information may be obtained.
2. Number Each Answer. When answering the questions in Enclosure B, please precede each answer with the corresponding number of the question and subpart to which it responds.
3. Number Each Document. For each document produced in response to this information request, indicate on the document, or in some other reasonable manner, the number of the question to which it corresponds.
4. Provide the Best Information Available. Provide responses to the best of the Company's ability, even if the information sought was never put down in writing or if the written documents are no longer available. The Company should seek out responsive information from current and former employees/agents. Submission of cursory responses when other responsive information is available will be considered non-compliance with this information request.
5. Identify Sources of Answer. For each question, identify (see Definitions) all the persons and documents that the Company relied on in producing its answer.
6. Continuing Obligation to Provide/Correct Information. If additional information or documents responsive to this information request become known or available to the Company after it responds to this information request, EPA hereby requests pursuant to CERCLA Section 104(e) that the Company supplement its response to EPA.
7. Scope of Request. The scope of this request includes all information and documents independently developed or obtained by research on the part of the Company, its attorneys and consultants or any of their agents, consultants or employees.
8. Confidential Information. The information requested herein must be provided even though the Company may contend that it includes confidential information or trade secrets. The Company may assert a confidentiality claim covering part or all of the information requested, pursuant to Sections 104(e)(7)(E) and (F) of CERCLA, 42 U.S.C. §§ 9604(e)(7)(E) and (F), and Section 3007(b) of RCRA, 42 U.S.C. § 6927(b), and 40 C.F.R. § 2.203(b). If the Company makes a claim of confidentiality for any of the information it submits to EPA, it must prove that claim. For each document or response the Company claims as confidential, it must separately address the following points:
 - (a) Clearly identify the portions of the information alleged to be entitled to confidential treatment;

- (b) Identify the period of time for which confidential treatment is desired (e.g., until a certain date, until the occurrence of a specific event, or permanently);
- (c) Identify measures taken by the Company to guard against the undesired disclosure of the information to others;
- (d) Explain the extent to which the information has been disclosed to others, and the precautions taken in connection therewith;
- (e) Provide pertinent confidentiality determinations, if any, by EPA or other federal agencies, and a copy of any such determinations or reference to them, if available; and
- (f) State whether the Company asserts that disclosure of the information would likely result in substantial harmful effects to the Company's competitive position, and if so, what those harmful effects would be, why they should be viewed as substantial, and an explanation of the causal relationship between disclosure and such harmful effects.
- (g) To make a confidentiality claim, please stamp, or type, "confidential" on all confidential responses and any related confidential documents. Confidential portions of otherwise nonconfidential documents should be clearly identified. The Company should indicate a date, if any, after which the information need no longer be treated as confidential. Please submit the Company's response so that all nonconfidential information, including any redacted versions of documents, are in one envelope and all materials for which the Company desires confidential treatment are in another envelope.
- (h) All confidentiality claims are subject to EPA verification. It is important that the Company satisfactorily show that it has taken reasonable measures to protect the confidentiality of the information and that it intends to continue to do so, and that the information is not and has not been obtainable by legitimate means without the Company's consent. Information covered by such claim will be disclosed by EPA only to the extent permitted by CERCLA Section 104(e). If no such claim accompanies the information when it is received by EPA, then it may be made available to the public by EPA without further notice to the Company.

9. Disclosure to EPA's Authorized Representatives. Information that the Company submits in response to this information request may be disclosed by EPA to authorized representatives of the United States pursuant to 40 C.F.R. § 2.310(h) even if the Company asserts that all or part of it is confidential business information. The authorized representatives of EPA to which EPA may disclose information contained in the Company's response are as follows:

GRB Environmental Services, Inc.
EPA Contract Number EPR90603

Department of Toxic Substances Control/California
Environmental Protection Agency

Toeroek & Associates, Inc.
EPA Contract Number BPA-11-W-001

CH2M Hill, Inc.
EPA RAC Contract Number EP-S9-08-04

SAIC (subcontractor under Toeroek & Associates, Inc.)
EPA Contract Number BPA-11-W-001

Any subsequent additions or changes in EPA contractors who may have access to the Company's response to this information request will be published in the Federal Register.

This information may be made available to these authorized representatives of EPA for any of the following reasons: to assist with document handling, inventory, and indexing; or to assist with document review and analysis for verification of completeness; or to provide expert technical review of the contents of the response. Pursuant to 40 C.F.R. § 2.310(h), the Company may submit comments on EPA's potential disclosure of any confidential information to its authorized representatives within the thirty (30) calendar day period in which the response is due.

10. Objections to Questions. If the Company has objections to some or all of the questions contained in the information request, it is still required to respond to each of the questions.

Definitions Applicable to Enclosure B, Information Request:

1. Any reference to Pacific Scientific Energetic Materials Company, LLC or the "Company" should be interpreted to include, but not be limited to, all officers, managers, members, employees, contractors, assigns, agents, trustees, predecessors, successors, subsidiaries, operating divisions, affiliates and branches.
2. The term "person" shall include any individual, firm, unincorporated association, partnership, corporation, trust, joint venture, or other entity.
3. The term "waste" or "wastes" shall mean and include trash, garbage, refuse, by-products, solid waste, hazardous waste, hazardous substances, and pollutants or contaminants, whether solid, liquid or sludge.
4. The term "hazardous waste" shall have the same definition as that contained in Section 1004(5) of RCRA.
5. The term "hazardous substance" shall have the same definition as that contained in Section 101(14) of CERCLA, and includes any mixtures of such hazardous substances with any other substances, including mixtures of hazardous substances with petroleum products or other nonhazardous substances.
6. The term "release" has the same definition as that contained in Section 101(22) of CERCLA, and includes any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment, including the abandonment or discharging of barrels, containers and other closed receptacles containing any hazardous substance or pollutant or contaminant.

7. The term "pollutant or contaminant" shall have the same definition as that contained in Section 101(33) of CERCLA and include any mixtures of such pollutants and contaminants with any other substance including petroleum products.
8. The term "materials" shall mean all substances that have been generated, treated, stored, or disposed of or otherwise handled at or transported to the Site including, but not limited to, all hazardous substances, pollutants or contaminants.
9. The term "documents" includes any written, recorded, computer generated, or visually or aurally reproduced material of any kind in any medium in your possession, custody, or control or known by you to exist, including originals, all prior drafts, and all non-identical copies.

ENCLOSURE B: INFORMATION REQUEST

Information provided to EPA indicates that Teledyne Industries, Inc. (n/k/a, TDY Industries, LLC) formerly conducted explosives testing in an area west of the Stringfellow hazardous waste disposal site from at least 1965 to 1971 through its McCormick Selph Ordnance division. This 104(e) information request is being sent to Pacific Scientific Energetic Materials Company, LLC (the "Company") because research indicates that in 1999, the assets of Teledyne's McCormick Selph Ordnance business unit were sold to the Company, which was known at that time as McCormick Selph, Inc. For the purposes of this 104(e) information request, "**Teledyne**" is defined to include Teledyne Industries, Inc. (n/k/a TDY Industries, LLC), its former McCormick Selph division, its former parent Teledyne, Inc., and any of their affiliated companies that conducted operations within the Site. This request seeks all information the Company may have about the historical operations of Teledyne's McCormick Selph division at the Site, and asks that the Company provide information to the best of its knowledge.

To the extent that the Company itself or one of its divisions, subsidiaries, or affiliated companies conducted operations at the Site, please also respond to the following requests on behalf of the Company and its affiliated entities.

1. State the full legal name, address, telephone number, position(s) held by, and tenure of the individual(s) answering any of the questions below on behalf of the Company.
2. Identify all Teledyne-related entities that conducted operations and/or owned real estate property within the Site.
3. Identify the dates that Teledyne owned real estate property at the Site.
4. Provide the dates that Teledyne operated at the Site. Provide a detailed description of Teledyne's operations, including all activities related to aerospace and defense research and testing.
5. Identify and describe the portion(s) of the Site where Teledyne conducted operations. Provide a scaled map of the Site that shows where Teledyne conducted operations. The map should include the locations of significant buildings, equipment and geographical features. Indicate the locations of all chemical and waste storage areas, and the areas where the testing of any rocket fuels, propellants or explosives was conducted.
6. Provide a list of all chemicals and hazardous substances used by Teledyne at the Site, identifying the chemical composition and quantities used. If available, provide copies of Material Safety Data Sheets ("MSDSs") for all hazardous substances used.
7. If explosives or blasting components were manufactured or used in Teledyne's operations at the Site, provide a complete list of the explosives and blasting components and their chemical components, the time period that each respective type were manufactured or used, and a map showing the locations where the respective explosives and blasting components were stored and detonated. If available, provide copies of MSDSs for all explosives and blasting components.
8. If rocket fuel or propellants were manufactured or used in Teledyne's operations at the Site, provide a complete list of the rocket fuel and propellants and their chemical components, the time

period that the respective rocket fuel and propellants were manufactured or used, and a map showing the locations where the respective rocket fuel and propellants were stored and tested. If available, provide copies of MSDSs for all rocket fuel and propellants.

9. If any substance containing perchlorate was utilized in Teledyne's operations at the Site, provide a detailed description of those operations. Indicate the approximate volume of perchlorate substances used annually at the Site, the dates perchlorate substances were used, and the storage and disposal practices in effect during Teledyne's operations at the Site for materials containing perchlorate. Include all documentation referencing or detailing the use and disposal of perchlorate-containing substances.
10. Please identify all leaks, spills, or other releases into the environment of any hazardous substances or pollutants or contaminants that have occurred at or from the portion of the Site where Teledyne formerly operated. In addition, identify and provide supporting documentation of:
 - a. The date each release occurred;
 - b. The cause of each release;
 - c. The amount of each hazardous substance, waste, or pollutant or contaminant released during each release;
 - d. Where each release occurred and what areas were impacted by the release; and
 - e. Any and all activities undertaken in response to each release, including the notification of any local, state, or federal government agencies about the release.
11. Provide copies of all sampling and investigation reports for the portion of the Site where Teledyne formerly operated that contain the laboratory, or field analyses of the soil quality and water quality of the aquifers, mine water, surface water, groundwater, tailing pond discharges and receiving streams. Include maps showing all sampling locations.
12. Describe the waste materials generated from Teledyne's operations at the Site. Provide information on the storage and disposal methods for each waste, the frequency of disposal, and quantities of waste generated annually. If available, provide copies of all manifests or other documents evidencing Teledyne's offsite disposal of wastes from the Site.
13. Provide copies of all local, state and federal permits related to Teledyne's operations at the Site.
14. As noted above, information provided to the EPA indicates that in or about 1999, the Company purchased the assets of the former McCormick Selph division of Teledyne. Provide complete, executed copies of all transaction documents evidencing the Company's purchase of the McCormick Selph assets, including all exhibits thereto.
